

# History of the Waunakee Community Band

The Waunakee Community Band has found that music is a universal language that can unite cities, states and countries. Many rich connections have been established through our travels and we love to share our music with our community and beyond.

The band celebrated its 20th, 25th, 30th, 35th and 40th Anniversaries with special concerts featuring compositions written especially for the band by Pierre La Plante (2005), Rick Kirby (2010 - 2015 - 2025), Luke Thering (2010), and Larry Daehn (2020). We are honored to have such talented composers provide us with original pieces to celebrate our milestones and we frequently include the pieces in our performances.

We look forward to many more anniversary celebrations, travel experiences and concert performances. Waunakee Community Band demonstrates the value of music in our lives and communities and works to create an environment of camaraderie and celebration of music.
